DETAILED ACTION

1. This action is in response to communications filed January 22, 2007.

Claim Objections

2. With regards to the cancellation of claims 1-154, and the submittal of new claims 155-189, examiner has withdrawn all previous claim objections.

Claim Rejections - 35 USC § 101

3. With regards to the cancellation of claims 1-154, and the submittal of new claims 155-189, examiner has withdrawn all previous rejections to the claims under 35 U.S.C. 101.

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 155-175, are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Although the claims recite "a tangible computer usable medium", applicant's specification describes an embodiment where media can be transmission media (such as carrier waves traveling over an airwave, optical line, electric line, etc.), (see applicant's disclosure pg. 15, lines 11-22). Further, applicant's specification fails to distinguish between storage media and transmission media, leading one to believe applicant is attempting to claim transmission

media. Transmission media is non-statutory, as it is not a useful process, machine, manufacture, or composition of matter. Appropriate correction is required.

Response to Arguments

6. Applicant's arguments, see remarks, filed January 22, 2007, with respect to claims 155-189 have been fully considered and are persuasive.

Allowable Subject Matter

7. Claims 176-189, are allowed.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2151

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
